

National Organizations that Provide Financial Assistance to Pet Owners in Need

Please keep in mind that each organization is independent and has their own set of rules and guidelines. Therefore you will have to investigate each one separately to determine if you qualify for assistance:

General Veterinary Services

The Onyx & Breezy Foundation:

Provides funding and support for food, medicine and supplies and for pets of individuals where medical hardship is present. Information needing to be submitted in order to be considered for a grant request. A fully completed grant application including:

- * The Onyx & Breezy Foundation Questionnaire
- * Financials: tax return
- * Estimate of Cost
- * Diagnosis & Prognosis
- * Care Credit status (Must apply for care credit)

Email: info@paws4acure.org

The Pet Fund:

The Pet Fund works only on non-basic, non-urgent care, such as cancer treatment, heart disease, chronic conditions, endocrine diseases, eye diseases, etc. ALL applicants are REQUIRED to contact The Pet Fund by phone BEFORE applying for funding. Call 916-443-6007. This way, we can ensure that all applicants are aware of both the current wait list time and the eligibility requirements for applying for financial assistance.

Pet Assistance Inc:

Pet Assistance provides emergency veterinary subsidies to pet owners in financial need, and only for pets that have a good prognosis. Grants are made based on urgency, prognosis and financial need. They do not help with newly or recently acquired animals because of too many calls come from people with puppies that have been hit by cars, broken legs etc... If you feel you qualify for our assistance please email us at getapet@gmail.com

Be sure to include: your name, address, telephone number, a BRIEF summary of the problem and a photo of your pet, which we may use in newsletters or on our website.

Urgent Care

Brown Dog Foundation:

An organization dedicated to helping families who find themselves in a temporary financial crisis at the same time their pet requires life-saving treatment or life-sustaining medications. Additionally, if you do not have a regular veterinarian, it is highly unlikely that you will receive assistance at this time.

www.browndogfoundation.org

(623) 261-8205

Email: grants@browndogfoundation.org

The Mosby Fund:

Not equipped to respond on an emergency basis. Provides help with urgent treatment for dogs. The priority for accepting an application for funding is for a life-saving emergency confirmed by a licensed veterinarian either by fax or phone. If your dog has already had surgery, been treated, etc., they do not help with those incurred vet bills. They require all dogs they help be spayed/neutered prior to providing financial assistance.

RedRover Relief:

RedRover Relief provides financial assistance grants and additional resources so pet owners can care for animals who need urgent veterinary care. RedRover also offers financial assistance for victims of domestic violence and their pets.

www.redrover.org (916) 429-2457 Email: info@RedRover.org

Rose's Fund for Animals:

When there is a situation where the pet or found animal has a good prognosis, but the owner or Good Samaritan can't afford it, this fund may help cover the cost. The veterinarian should call the fund only after the owner has used his/her own resources and applied for a care credit card. We will then assist the owner to the best of our abilities in making a payment towards the bill. Below are three general guidelines used in making funding decisions.

- 1) The pet/found animal must have a life-threatening illness, injury or condition.
- 2) The illness, injury or condition must require immediate or prompt veterinary intervention in order for the pet/found animal to survive.
- 3) The veterinarian's prognosis (in the veterinarian's best professional judgment) should indicate a positive outcome.

- Ask your veterinarian about setting up a payment plan for the needed medical treatment.
- Register with a local temporary agency to obtain employment on a “temp” basis, or to pick up a part-time or second job to generate additional income.
- Exchange services with family, friends or neighbors—for example, doing home repair, babysitting, or cleaning in exchange for payment for needed veterinary care.
- Hold a garage sale to get rid of unused or unwanted appliances, furniture, equipment, etc.
- Evaluating your monthly budget can be useful - cutting “extras” like cable television fees, eating out, etc. can add up quickly. Make a list of essential needs; then temporarily cancel all extra expenditures.
- Sell unwanted items of value on an internet auction site.
- Set up a savings account to plan for all future emergencies, including veterinary care. Ideally you should be able to save at least 10% of your monthly budget for this account.

- Consider veterinary insurance – there are several pet insurance programs available nationally. Many of these plans are very affordable and will enable you to avoid future financial crises involving veterinary care. However, coverage is limited and these programs will not substitute for having a savings account in place.
- Budget a monthly allowance for preventative veterinary care. Regular "well-pet" checkups and good preventative care practices will help avoid medical crises for your pet in future.
- Ask your veterinarian about special discounts and wellness packages such as dental month specials, multiple pets etc...
